Transport Dimensions	Length: 22' 5"
	Width: 11' 4"
	Height: 12'
Weight	Approximately 18,000 pounds

The Mighty Giant Model 2100 is a heavy duty, commercial, PTO Driven tub grinder, built for the wood and mulch industries. It features a variable speed, hydraulic and electronically driven tub. A hydraulically driven, swinging, stacking conveyor. Both the tub and elevator are run by remote control for operator convenience. The mill is a 26" x 48" Mighty Giant, free swinging hammer mill for a higher quality finished product.

A 16" discharge auger under the mill feeds the top-driven conveyor, allowing trouble free operation and less mess under the grinder.

Standard on every Mighty Giant - from the PTO Model to the Hydrafork - is the hydraulic opening tub for easy access to the mill, hammers, and screens-without having to climb in and out of the tub.

FEATURES

- Tub opens hydraulically for servicing and changing screens
- Tub Operation is controlled by a Plus 1 governor w/ Remote
- Tub is hydraulically chain-driven with variable speed and reverse
- Elevator drives from the top with rubber lagged pulley
- Hydraulically raise, lower and swing side to side the discharge elevator
- Trouble-free 16" High-capacity discharge auger
- Highest Capacity, most Durable PTO Grinder available
