The Mighty Giant Model 5012 is a production model grinder with a hydraulic fork as standard equipment, allowing the operator to control the entire grinder from the relative comfort of the grinder's cab. With a multi-function remote control system, the 27' long, top-driven, elevator swings from side to side, for ease of use in grinding into piles, buildings or trucks.

Standard on every Mighty Giant, from the PTO model to the Hydrafork model, is the hydraulic opening tub for easy access to the mill, hammers and screens, eliminating the need to climb in and out of the tub.

FEATURES

- Tub opens hydraulically for servicing and changing screens.
- Tub operation is controlled by Plus One governor.
- Tub is hydraulically chain-driven with variable speed and reverse.
