- Elevator drives from the top with rubber lagged pulley
- Hydraulically raise, lower, swing and fold discharge elevator
- Trouble-free 14" High-capacity discharge auger
- Highest Capacity, most Durable Grinder available
- Deluxe cab with heat and air conditioning

The Mighty Giant Model 5600 is a production model grinder with a hydraulic fork as standard equipment, allowing the operator to control the entire grinder from the relative comfort of the grinder's cab. The 25' long, top-driven, elevator swings from side to side, for ease of use in grinding into piles, buildings or tucks. The Mighty Giant comes equipped with your choice of CAT or John Deere engines up to 630 HP, featuring 5-Year extended engine warranty coverage.

Standard on every Mighty Giant - from the PTO Model to the Hydrafork - is the hydraulic opening tub for easy access to the mill, hammers and screens- eliminating the need to climb in and out of the tub.

Manufacturer reserves the right to modify designs, materials and specifications without notice.
